

Philips Sonicare 9900 Prestige

Philips Sonicare 9900 Prestige, the brand's most advanced toothbrush yet, is designed around you, sensing your brushing style and adapting as you clean to provide an optimum, personalized cleaning experience. Unrivaled sonic technology is designed to improve your brushing over time and brush away plaque gently and effectively, by creating up to 62,000 bristle movements and dynamic fluid action to help clean even hard-to-reach areas, leaving your mouth feeling exceptionally fresh and clean.

SenseIQ Technology

As you brush, SenseIQ technology senses, adapts and cares for your teeth and gums, offering a truly unique and customized brushing experience. Philips Sonicare 9900 Prestige uses sensors to detect the pressure you apply, the cleaning motion you use and the coverage you achieve – up to 100 times per second.

- **Senses** pressure, motion, coverage, duration and frequency up to 100 times per second
- **Adapts** to you automatically and in real time, by adjusting intensity when it senses you push too hard
- **Cares** for your holistic oral health by cleaning and whitening teeth, protecting your gums and helping you achieve better brushing over time

One Brush Head for Complete Oral Care

The Premium All-In-One brush head is designed to brush away plaque, remove stains and care for gums without switching brush heads

- **Removes up to 20X more plaque**¹
- Up to **100% less stains** in less than 2 days²
- Up to **15X healthier gums**³

Boost Your Brushing with the Philips Sonicare App

The Philips Sonicare app is powered by artificial intelligence and works in perfect harmony with Philips Sonicare 9900 Prestige. Available for free download in the [App Store](#) and [Google Play](#) Store.

- **Real-time guidance** helps you to boost your brushing on the spot, with feedback on pressure, cleaning motion, coverage, duration and frequency

¹ Versus a manual toothbrush in a clinical study

² Versus a manual toothbrush in a lab test

³ Versus a manual toothbrush in six weeks in a clinical study

- **Progress reporting** shares insights on your brushing with summaries for the day, week, month and year
- **Personalized brushing recommendations** show you how to achieve the best oral health with tailored toothbrush settings and actionable steps that evolve as you do
- **Auto-syncing** means that your brushing data is always kept up to date in the app, even when you don't brush with the app open at your side

Travel Case with USB

- **Wrapped in soft-touch vegan leather**, the elegant and compact travel case is both durable and stylish
- **Convenient size** to slip into any bag
- **Integrated USB-C port and USB charging cable** included for easy charging within the case

Availability: Philips Sonicare 9900 Prestige is available on Philips.com starting **May 2021 starting at \$399.**
